

DUMP THE PUMP!

Introducing HydroDose Eductor System

Featuring operational efficiencies not found in pumping systems

- Faster Chemical Injection:
Rates up to 600 gallons per day
- Less maintenance thanks to ***no moving parts***
- Automatic priming eliminating the hassle of pumps with lost prime
- 24VAC low-power consumption operation

Hydro Systems has products you need NOW—and in the future

We are known for our leadership in cutting-edge technology, customer care and designing innovative customized systems for water-related industries.

Hydro can be the catalyst for your changing world. We have the products you need to be successful **right now!**

And wait until you see what we have coming next!
