

Strategic Manufacturing

Identification of opportunities via relationships for future technology commercialization and sales

The Strategic Manufacturing business segment of AP Tech utilizes market knowledge, production, capabilities, processes and capacity to capitalize on the opportunity to produce and potentially commercialize new products.

We can help with

- House formulations for water treatment
- Tolling of custom blends
- Pilot blending / Small run availability
- Tableting
- Ribbon blending powders and multiple tableting processes
- Re-packing (Drop Ship/Private Labeling/Warehousing and Distribution)
- Support Services (7 on-staff engineers, 2 on-staff chemists)
