

Panel Mount Systems

Simple, Plug-N-Play

Get up and running in a fraction of the time.

Panel mount systems provide a quick and easy way to enjoy the benefits of solid dissolving systems. Simply hang the panel on the wall, connect your tubing, and you're ready to go.

Panel systems feature the Ultra-M, the flagship model of the enduroTEQ™ dissolver series. It utilizes a non-electric mechanical level system and integrated flow control to provide accurate chemical dosing for a variety of water treatment systems.

Panel systems also include an inlet water manifold with a True Union ball valve, 80 mesh in-line strainer, and pressure gauge. The water manifold includes individual ball valves for each dissolver, allowing you to take one offline if needed.

Chemical pumps, sized specifically for solid applications, can be included in the package as well. Pumps are mounted below the dissolvers to create flooded suction, eliminating concerns about pumps losing prime. Shelves can be included instead of pumps to allow the use of existing pumps. Please refer to SolidGuide to generate a site survey and get recommendations on pump sizing for your installation.

Part #	Panel Size	# Ultra-M Dissolvers	# Outlet Couplers	# Pumps	# Shelves
K606312	33"x40"	3	1	2	0
K606310	33"x40"	3	1	0	0

K60610A	13"x40"	1	0	0	1

PRODUCT FEATURES

- Simple plug & play
- Easy to install
- Non-electric level control
- Allows for flooded suction
- Available for 1, 2, or 3 dissolvers
- Multiple configurations
